The purpose of this fund is to provide facilitation of safe reuse of abandoned or idled environmentally impacted properties in order to promote smart growth, sustainable development and green space preservation via a Brownfields agreement. Funding is provided by fee receipts from prospective developers of brownfields properties seeking brownfield agreements from the Department of Environmental Quality(DEQ). The funding defrays costs incurred by DEQ and the Department of Justice as provided in G.S. 130A-310.39 and 310.22

The purpose of this fund is to conduct assessment and mitigation of the hazards posed by contamination at old unlined landfills that ceased operation prior to 1983 and are considered unpermitted landfills. Funding is provided by a statewide disposal tax, where 50% of the proceeds address these landfills. The CAP is currently 19% and up to 13% of the income can be used for administration of the Inactive Hazardous Sites program, including contracts for assessment and mitigation of the hazards posed by these landfill sites. 66A4-DWR- Local Assistance/Other FY 2014

This fund is up to 15% of the 2014 Drinking Water State Revolving Fund Capitalization Grant, and funds several categories of activities, including loans to finance the purchase of property for land acquisition and/or conservation easements to facilitate source water protection. This loan program provides incentives to implement source water protection planning at the local level. Principal and interest payments are transferred into the DWSRF's General Fund budget code and used for future standard loans. This fund also allocates a portion of the Drinking Water State Revolving Fund Capitalization grant for the Wellhead Protection Program, to include efforts to identify and inventory locations of public water supply wells, and locate potential contaminant sources within wellhead protection areas.

2135-Magazine - Wildlife in North Carolina

This fund is one of five (2131, 2132, 2133, 2134, and 2135) for the Division of Conservation Education. The purpose of this fund is to create, publish, and distribute Wildlife in North Carolina magazine. The magazine serves to educate the NCWRC, recreationalists and the general public about the sound conservation of North Carolina's wildlife, other interrelated natural resources and the environment we share with them. This is accomplished by planning content of issues, writing stories, editing stories from freelancers, taking photographs, purchasing photos from other sources, creating graphics and charts, using graphic design to create magazine layouts, proofreading at every step of assembly, and delivering files to a printing company for magazine printing and distribution. Educating the public about the state's natural resources and recreational opportunities therein can encourage people to 1) participate in outdoor activities and 2) actively support the agency's conservation and management actions.

2141-Inland Fisheries

This fund is one of three (2141, 2241 and 2242) for the Division of Inland Fisheries. The Division of Inland Fisheries manages, conserves, and enhances the state's warmwater, coolwater, and coldwater fisheries resources and their habitats, and provides recreational fishing opportunities for the citizens of North Carolina. Fisheries resources are managed and enhanced by conducting biological surveys and research projects, developing fishery management plans, stocking fish produced at five state fish hatcheries into public waters, monitoring recreational harvest, and establishing fishing rules that allow reasonable harvest while protecting necessary spawning stock of self-sustaining fish populations. Aquatic habitats are protected by providing technical guidance on development project permits to avoid or minimize impacts, restoring degraded stream channels, and public outreach and education. Public fishing opportunities are further enhanced by developing fishing access sites, cooperatively managing publicly owned lakes, providing universally accessible fishing piers, and instructing children how to fish.

2141-Inland Fisheries

This fund is one of three (2141, 2241 and 2242) for the Division of Inland Fisheries. The Division of Inland Fisheries manages, conserves, and enhances the state's warmwater, coolwater, and coldwater fisheries resources and their habitats, and provides recreational fishing opportunities for the citizens of North Carolina. Fisheries resources are managed and enhanced by conducting biological surveys and research projects, developing fishery management plans, stocking fish produced at five state fish hatcheries into public waters, monitoring recreational harvest, and establishing fishing rules that allow reasonable harvest while protecting necessary spawning stock of self-sustaining fish populations. Aquatic habitats are protected by providing technical guidance on development project permits to avoid or minimize impacts, restoring degraded stream channels, and public outreach and education. Public fishing opportunities are further enhanced by developing fishing access sites, cooperatively managing publicly owned lakes, providing universally accessible fishing piers, and instructing children how to fish.

This is one of five funds (2161, 2162, 2163, 2165, and 2166) for the Division of Engineering Services. As required by lease agreement, the purpose of this fund is to provide a mechanism for identifying receipts generated from lands leased to the Wildlife Resources Commission by the U.S. Army Corps of Engineers for allocation back to Butner-Falls of Neuse and Jordan Game Lands for management of wildlife habitats and the provision of infrastructure to facilitate public use by hunters, anglers, trappers, wildlife viewers, and other approved resource-based recreational users. Consistent with the Game Land Program mission to augment delivery of comprehensive and sound wildlife conservation programs, this fund is used to support timber harvest, prescribed fire, manipulation of habitats, and public use infrastructure necessary to establish and maintain a distribution of various habitat types to support the needs of resident wildlife species and to facilitate public use.

24350-Wildlife Resources Commission - Operating - Non-Interest Bearing

2165-Falls and Jordan Lakes

This is one of five funds (2161, 2162, 2163, 2165, and 2166) for the Division of Engineering Services. As required by lease agreement, the purpose of this fund is to provide a mechanism for identifying receipts generated from lands leased to the Wildlife Resources Commission by the U.S. Army Corps of Engineers for allocation back to Butner-Falls of Neuse and Jordan Game Lands for management of wildlife habitats and the provision of infrastructure to facilitate public use by hunters, anglers, trappers, wildlife viewers, and other approved resource-based recreational users. Consistent with the Game Land Program mission to augment delivery of comprehensive and sound wildlife conservation programs, this fund is used to support timber harvest, prescribed fire, manipulation of habitats, and public use infrastructure necessary to establish and maintain a distribution of various habitat types to support the needs of resident wildlife species and to facilitate public use.

1552-Welcome Centers

The Department of Commerce's nine Welcome Centers promote thousands of tourism-related businesses, attractions, accommodations, events and more, to visitors in North Carolina who are actively seeking travel information. For many of these businesses, these free Welcome center services (and other tourism services) are their only affordable marketing tool. Located on interstate highways, just inside the state line, each Welcome Center has a statewide focus, with an emphasis on information for visitors traveling a particular interstate corridor. Professional, nationally certified travel counselors located at each Welcome Center, distribute the state's Official North Carolina Travel Guide, the Department of Transportation's official state map and other marketing publications exclusively about North Carolina; offer detailed and personalized travel information in clean, modern facilities; book room reservations at no charge for visitors staying overnight in North Carolina; and provide individual assistance to build personal connections with visitors.

1561-Wanchese - Marine Industrial Park

This fund was transferred to budget code 54600 and is no longer used.

This program provides for the development, operation, and management of the Wanchese Marine Industrial Park, a commercial seafood/marine industrial port facility, in order to enhance and support the state's seafood/commercial fishing and marine trades, which improve the overall economy of the area, region, and state. To carry out this responsibility, this division provides new private-sector jobs and business opportunities by: 1) leasing park-owned buildings and/or land for the growth of seafood/marine related businesses; 2) integrating economic development activities with regional partnerships; and 3) expanding promotional activities, which will increase awareness of the facility within the targeted seafood/marine industries.

1631-Community Development Block Grants

The Community Development Block Grant (CDBG) provides funds to local governments to maintain and develop affordable housing, sustain a suitable living environment, and expand economic opportunities. Funds come to the state through an annual allocation from the federal Department of Housing and Urban Development (HUD). Per federal statute, the majority of assistance is targeted to low and moderate income families and is used to stimulate lasting improvements through improving housing, providing public facilities, and creating new jobs by expanding existing businesses and supporting the creation of new businesses. Funds are directed to meet local needs developed through a collaborative effort with three sister agencies and public input gathered through extensive public hearings.

1635-Community Development Block Grant - Disaster

The Disaster Relief Appropriations Act of 2016 (Pub. L. 114-113, approved December 18, 2015) (Appropriations Act) was enacted to appropriate federal funds for disaster relief. Fifty counties in North Carolina are eligible for FEMA's Public Assistance program as of December 23rd, 2016, forty-five of these counties are also eligible for Individual Assistance. To date, \$95.3 million in federal/state financial assistance was approved to help flood survivors recover through FEMA's programs. The Department of Housing and Urban Development (HUD) appropriated \$198,553,000 in Community Development Block Grant Disaster Recovery (CDBG-DR) funding to the State of North Carolina, using the best available data to identify and calculate unmet needs for disaster relief, long-term recovery, restoration of infrastructure, and housing and economic revitalization. In addition, 80% of the total funds, or \$158,842,400, will go to the most impacted areas: Robeson, Cumberland, Edgecombe, and Wayne counties. Within these counties, the following cities were most impacted: Fair Bluff; Fayetteville; Cumberland; Princeville; Edgecombe; Lumberton; Robeson; Goldsboro; and Wayne. These funds are to be used in order to satisfy a portion of unmet need that still remains after other federal assistance, such as the Federal Emergency Management Agency (FEMA), Small Business Administration (SBA), or private insurance, has been allocated.

24602-Commerce - Disaster Relief Fund

2966-Business Disaster Loans 2004-05

This fund was set up to provide loans to small businesses in Western North Carolina after storms in 2004. These businesses did not qualify for federal loan programs through the Small Business Administration. The loans were interest free for three years and then were to be repaid as principal and interest for 5 years. The loans are currently in repayment and the Department of Commerce receives payments from debtors, collection agencies and debt set-off programs through the Department of Revenue and the Lottery Commission. Loans are administered jointly by the Small Business Technology Development Center and Wells Fargo.

2565-JDIG Special Revenue

The Job Development Investment Grant (JDIG) Special Revenue fund awards grants directly to new and expanding businesses that will provide economic benefits to the State, and need the grant to carry out the project in North Carolina. Grants are based on the job creation and investment commitment made by companies in their formal applications to the State prior to a location decision. Grant funds are disbursed annually to approved companies based on a percentage of withholding taxes paid by new employees, following satisfaction of performance criteria set out in grant agreements.

The Division of Workforce Solutions (DWS) is the administrative entity for funds allocated to the State of North Carolina from the US Department of Labor Workforce Innovation and Opportunity Act (WIOA). WIOA programs provide employment training and related services to adults, economically disadvantaged youth and dislocated workers. Program funds target training for workers in the business sector where skilled workers are needed to meet demand. DWS implements the required provisions of the WIOA program, establishes policy and guidelines and provides general oversight, monitoring and performance accountability for activities at state and local levels. Additionally, DWS provides employment services to State workers, employers and the public. These services promote economic stability and growth, development of a skilled workforce and a world class economy for North Carolina. DWS also operates one of the nations largest Trade Adjustment Assistance (TAA) programs in the nation, which benefits trade impacted workers. Wagner-Peyser discretionary grant funds are also used for direct staffing to enhance service delivery to jobseekers, employers and individuals.

The North Carolina Utilities Commission has the primary statutory responsibility for administering Chapter 62 of the North Carolina General Statutes, that is, the Public Utilities Act (the Act). As set forth in the Act, the principal purpose of the Utilities Commission is to regulate the rates and quality of service of all investor-owned public utilities operating within the state. The Commission's Gas Pipeline Safety Office's purpose relates specifically to ensuring the safety of natural gas distribution, through inspections of pipeline infrastructure, while adhering to and enforcing state and federal gas safety regulations. Gas Pipeline Safety is committed to encouraging and monitoring the continuing development of a safe state gas pipeline infrastructure, which is essential to economic opportunity and improvement in the quality of life within our state and the well-being of our citizens.

5821-Credit Union Supervision

The North Carolina Credit Union Commission works to advocate for and assist in the formation of state-chartered credit unions and to ensure the safety and soundness of credit unions and their compliance with applicable laws through periodic examinations and other means. To carry out this responsibility, this division, through improved examinations and reporting procedures, identifies credit unions having adverse financial or operational trends and takes appropriate regulatory action, if necessary.

5861-Wanchese Seafood Industrial Park

This program provides for the development, operation, and management of the Wanchese Marine Industrial Park, a commercial seafood/marine industrial port facility, in order to enhance and support the State's seafood/commercial fishing and marine trades, which improve the overall economy of the area, region, and state. To carry out this responsibility, this division provides new private-sector jobs and business opportunities by: 1) leasing park-owned buildings and/or land for the growth of seafood/marine related businesses; 2) integrating economic development activities with regional partnerships; and 3) expanding promotional activities, which will increase awareness of the facility within the targeted seafood/marine industries.

1260-Office of State Archaeology

The Office of State Archaeology (OSA) serves the department's statewide interests in prehistoric, historic, and underwater archaeology, and is a vital link among local, state, and federal agencies for all aspects of regulatory compliance, public education, and archaeological research in North Carolina. Underwater archaeology, including the Queen Anne's Revenge project, is a major OSA program. OSA helps protect endangered archaeological sites on private or public lands through enforcement of the North Carolina and federal archaeology laws, and maintains a statewide inventory of archaeological sites and the maps, photographs, and artifact collections that support the inventory. OSA records significant archaeological sites listed in the National Register of Historic Places. Staff archaeologists give lectures, demonstrate archaeological techniques, and prepare publications for school groups, amateur archaeological and historical societies, and government agencies. With the State Historic Preservation Office, OSA reviews permit applications and construction plans receiving state or federal assistance. Staff archaeologists administer grants for archaeological surveys and research, and help museums, universities, and local governments with technical questions on project planning, contract reviews, and archaeological sites protection.

1260-Office of State Archaeology

The Office of State Archaeology (OSA) serves the department's statewide interests in prehistoric, historic, and underwater archaeology, and is a vital link among local, state, and federal agencies for all aspects of regulatory compliance, public education, and archaeological research in North Carolina. Underwater archaeology, including the Queen Anne's Revenge project, is a major OSA program. OSA helps protect endangered archaeological sites on private or public lands through enforcement of the North Carolina and federal archaeology laws, and maintains a statewide inventory of archaeological sites and the maps, photographs, and artifact collections that support the inventory. OSA records significant archaeological sites listed in the National Register of Historic Places. Staff archaeologists give lectures, demonstrate archaeological techniques, and prepare publications for school groups, amateur archaeological and historical societies, and government agencies. With the State Historic Preservation Office, OSA reviews permit applications and construction plans receiving state or federal assistance. Staff archaeologists administer grants for archaeological surveys and research, and help museums, universities, and local governments with technical questions on project planning, contract reviews, and archaeological sites protection.

1500-Museum of History

This fund promotes understanding of the history and material culture of North Carolina for the educational benefit of the people through collections and historical interpretation at the North Carolina Museum of History in Raleigh, the Mountain Gateway Museum in Old Fort, the Museum of the Cape Fear in Fayetteville, and the Museum of the Albemarle in Elizabeth City. These museums develop, produce, and maintain long and short-term exhibits and associated programs, publications, audiovisual service outreach, and distance learning opportunities to schools and community groups throughout the state. The Division collects, conserves, and documents historical objects significant to North Carolina history and provides assistance to local and regional museums and historic sites. The Division also produces exhibits and programs on national and international history. This is one of two funds that support the division of State History Museums. The other is Fund 1245, which supports the three locations of the North Carolina Maritime Museum.
