Introduction

North Carolina General Statute 143C-9-4 mandates that state agencies, boards, and commissions submit a complete report of all funds received during the fiscal year for the use of a property, the provision of a service, or the exercise of a regulated privilege.

Data reported by agencies for these types of funds during fiscal year 2017-18 are listed by agency, budget code, fund code, and revenue account code as reported in the North Carolina Accounting System (NCAS). Data for boards that do not report to NCAS are assigned a “comparable” accounting code beginning with the characters “XX.” Information is reported as received from the agency; for some fees, the information is incomplete.

In many cases, the fees are subdivided into parts, or sub fees, to clarify the differing rates within the fee. Titles for the sub fees were supplied by the agencies for purposes of this report and are not reflected in NCAS.

The following definitions apply for fees and sub fees collected during fiscal year 2017-18.

Fee - Funds received during the fiscal year for the use of a property, the provision of a service, or the exercise of a regulated privilege. Not all fees that might fall under this definition have been included in this survey; North Carolina Accounting System (NCAS) account codes 4341#####, 4342#####, 434320####, 434321####, 434330####, 434390####, 434500####, and 434600#### have been excluded. The account code 434195#### is included in 2017-18; it applies only to universities and colleges.

Sub Fee - A breakout of a fee in order to list a particular rate instead of a range of values and/or in order to give more specific information about particular fees within the main fee reported.

Fee Title - The title and/or the description of the fee or sub fee being charged.

Fee ID - A sequential numbering of fees, which uniquely identifies them within the fee database.

Fee Rate - A statement of the amount of fees per unit in effect on the last day of the fiscal year.

Date of Last Change in Fee Amount - The date of the last change in the fee rate or sub fee rate, prior to July 1, 2017.

Frequency of Collection - The frequency of collection of the fee or sub fee during the fiscal year. Available options are *daily, weekly, monthly, quarterly, semi-annually, yearly, per occurrence, and other*.

Number of Collections - The total number of collections for the referenced fee or sub fee during the fiscal year.

Amount Collected - The total dollar amount of revenues collected for the referenced fee or sub fee during the fiscal year.

Statutory Authority - The citation from the North Carolina General Statutes that authorizes the collection of the fee or sub fee.

Administrative Authority - The citation from the North Carolina Administrative Code that authorizes the collection of the referenced fee or sub fee.

Fee Type – A broad category of accounts designated by NCAS. The specific NCAS account codes used for purposes of this report are shown in the following table.
