Closing the Coverage Gap for Healthier North Carolinians and a Healthier Economy

Recommends expanding Medicaid to provide access to affordable health insurance to 500,000 additional individuals, help rural hospitals keep their doors open, aid in addressing the opioid epidemic, and secure North Carolina's share of federal resources to inject over \$5 billion in direct spending into the state.

Transforming Medicaid and Health Choice

Provides funding to support the transition of the Medicaid and Health Choice programs from fee-for-service to managed care by leveraging \$268 million of the Medicaid Transformation Reserve.

Fighting the Opioid Epidemic through Expanded Treatment and Recovery

Directs more than \$15 million in Medicaid funding to expand treatment and recovery services for individuals with opioid use disorders. Opioids harm North Carolina families, communities and economy and are a leading cause of accidental death in North Carolina. Expanding access to treatment and recovery services is critical to fighting the opioid epidemic.

Investing in Early Learning and Development

Invests more than \$95 million from 2019-2021 in early education and child development. Adds 2,000 more childcare subsidy slots each year for children from low-income working families to receive high-quality care. Increases NC Pre-K reimbursement rate using lottery proceeds to help more children access Pre-K. Increases Smart Start by 10 percent to support families and children in all 100 counties, including by expanding home visiting programs.

Helping People with Disabilities Live, Work and Learn in Their Home Communities

Invests \$1 million in state-of-the-art adaptive equipment and assistive technologies to help people with disabilities live, work, and be educated in their communities. Provides funds to assist individuals who are blind and/or have other disabilities return to work.

Supporting Abused and Neglected Children

Provides \$1.1 million to improve child welfare services and add critical staffing and training to improve safety and outcomes for children experiencing abuse or neglect.

Upgrading Critical Health Services

Continues the state's investment in protecting public health by providing funds to replace and upgrade equipment in the State Laboratory of Public Health. Ensures the Office of the Chief Medical Examiner can perform robust investigations by providing additional investigators to handle growing caseloads. Provides funds to operate and maintain the Medical Examiner Information System.

Mission

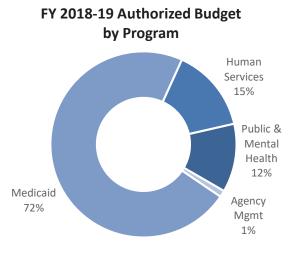

In collaboration with our partners, the North Carolina Department of Health and Human Services provides essential services to improve the health, safety, and well-being of all North Carolinians.

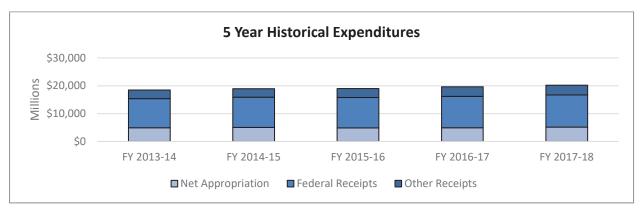

Goals

- 1. Advance the health and well-being of North Carolinians utilizing the programmatic tools of our Department.
- 2. Build an innovative, coordinated, and whole-person centered system that addresses both the medical and non-medial drivers of health.
- 3. Turn the tide of North Carolina's opioid crisis.
- 4. Ensure all North Carolina children get a healthy start and develop to their full potential in safe and nurturing families, schools and communities.
- 5. Achieve operational excellence.

Agency Profile

- Buy health for people through our Medicaid program, including working with underserved communities to improve access to quality health care and reduce health disparities.
- Safeguard public health by protecting communities from communicable and chronic diseases, epidemics, and contaminated food/water.
- Protect the safety, security and well-being of children and vulnerable adults.
- Support individuals with disabilities and older adults in leading healthy and fulfilling lives.
- Promote family economic independence and selfsufficiency.
- Ensure high standards in the many health care facilities we operate or regulate.
