## Introduction

*The Base Budget Line Item Detail, 2025-27* is the baseline for the upcoming biennium. It details the Governor's recommended fiscal plan for continuing operations of the state of North Carolina for the upcoming biennium.

The base budget for each state agency represents the authorized budget for that agency with certain allowable adjustments (see "Base Budget" under Definitions below).

The various agencies of state government are grouped by the following functions, with a separate Base Budget report provided for each:

- Education
- General Government
- Health & Human Services
- Justice & Public Safety
- Natural & Economic Resources
- Transportation
- Statewide Reserves

These functional groupings correspond to the sections of the Governor's Recommended Budget.

The Base Budget is prepared by the Office of State Budget and Management (OSBM).

## How to Read the Base Budget

The Base Budget is organized by state agency/department by budget code. Each budget code is broken into one or more budget funds to separate and manage budgeting activities. Within each budget fund, accounts provide a method to categorize the requirement ("expense") or receipt type. Counts of the number of personnel positions, also known as full-time equivalents or FTE, are also provided.

Different reports show various breakdowns of the totals to provide greater transparency and visibility. Within the report, each budget code contains 4 different views:

- Summary
- Summary by Purpose/Fund
- Summary by Account
- Fund Detail by Account, with a description of the purpose of each budget fund

All reports are generated by the NC Integrated Budget Information System (NC IBIS) and are termed "Worksheet I" in NC IBIS.

Each report has eight main columns:

- 1) Description of the expenditure or receipt
- 2) Amount spent or received as of June 30 of the first year (2023-24) of the current biennium (2023-25)
- 3) OSBM certified amount for FY 2024-25, including legislatively authorized revisions.
- 4) OSBM authorized amount for FY 2024-25, including revisions authorized by legislation and/or by OSBM
- 5) Amount of recommended increase or decrease for the first year (2025-26) of the next biennium (2025-27), as compared to the current year (2024-25) authorized amount
- 6) Total amount requested for the first year (2025-26) of the next biennium (2025-27)
- 7) Amount of the recommended increase or decrease for the second year (2026-27) of the next biennium (2025-27), as compared to the current year (2024-25) authorized amount
- 8) Total amount requested for the second year (2026-27) of the next biennium

## Definitions

### Authorized Budget

The certified budget plus revisions delegated to the OSBM and to agencies by the State Budget Act.

### Base Budget

The portion of the recommended budget that provides the baseline for the next biennium. The base budget for each state agency is the authorized budget for that agency with adjustments for the following:

1. annualization of programs and positions;
2. reductions to adjust for items funded with nonrecurring funds during the prior fiscal biennium;
3. increases to adjust for nonrecurring reductions during the prior fiscal biennium;
4. adjustments for federal payroll tax changes;
5. rate increases in accordance with the terms of existing leases of real property;
6. adjustments to receipt projections, made in accordance with GS 143C-3-5(b)(2)c.;
7. reconciliation of intra-governmental and inter-governmental transfers.

### Budget Code

OSBM and the Office of State Controller together with the State Treasurer determine a five-digit number (budget code) for budgetary reporting. This number generally identifies major fund types and the responsible entity for reporting. The first digit is the fund type. The second and third digits are usually the department/division code.

Budget codes are established for the following fund types:

- 0xxxx - Institutional Funds Revenue
- 1xxxx – General Fund
- 2xxxx - Special Funds
- 3xxxx - Federal Funds
- 4xxxx - Capital Project Funds
- 5xxxx - Enterprise Funds
- 6xxxx – Trust and Agency Funds
- 7xxxx - Service Funds
- 8xxxx - Highway Funds

### Certified Budget

Once the state budget is approved by the General Assembly and released, the Office of State Budget and Management (OSBM) certifies the official budgets to state agencies. Agencies then operate with the new budget. The State Budget Officer certifies the appropriations, revenue, and condition of the fund to the Office of State Controller and the State Treasurer. The certified budget reflects budget revisions that were mandated by the General Assembly.

### Change Budget

The portion of the recommended budget that is an expansion or reduction from the base budget. The change includes enrollment adjustments, entitlement adjustments, one-time purchases, inflationary adjustments, new or expanded programs, as well as other adjustments.

### Budget Fund Code

Budget Funds (or budget centers) are established when authorized by the General Assembly; changes in the accounting standards; authorizations by OSBM; and/or grant awards from federal, state, local, or private agencies, or individuals. The budget fund code is a six-digit number that, with its parent budget code, uniquely identifies the fund.

### Recommended Budget

Total of the base and change budgets submitted by the Governor to the General Assembly.

### Worksheet I

A component of the NC Integrated Budget Information System (NC IBIS) used by state agencies to develop their budget requests for the General Assembly.

The Information Technology Division (ITD) supports the business functions of the Department of Health and Human Services by developing, modifying, transferring, maintaining, and supporting automated systems; telecommunications and network design and management support; computer hardware planning and installation support; operational support including printing and distributing computer output; and technical assistance with acquisitions of computer hardware and software. ITD provides enterprise information technology leadership to DHHS and its partners so that they can leverage technology resulting in delivery of consistent, cost effective, reliable, accessible, and secure services. ITD also researches and analyzes existing federal, state, and departmental Information Resource Management (IRM) policies; develops recommendations for new IRM policies; monitors the implementation of IRM policies adopted by the department; and coordinates and supports IRM planning, quality assurance, and information resource security processes of the department. Effective July 1, 2018, budget code 14410, fund 1123 - ITD Planning and Development was merged into this fund. As a result this fund now also captures the planning and development expense for automation initiatives. Projects include applications development efforts as well as infrastructure projects for the Department of Health and Human Services.

**131017-DHSCENADM 1124 NC COUNCIL ON DEV DISAB BC 14410**

In each state, Federal law (PL 106-402), the Developmental Disabilities Assistance and Bill of Rights act of 2000, or DD Act) creates a state network that includes the NCCDD, a protection and advocacy system, and a university affiliated program to promote independence, productivity, integration, and freedom of choice for persons with developmental disabilities. The NCCDD advances this philosophy through the development of its Five Year State Plan. The committee structure of the NCCDD (Advocacy and Leadership, Community Capacity Building, and Disability Systems Change) reflects the major focus of the Council to meet goals within the Plan. While organizationally situated within the Office of the Secretary of the DHHS, the NCCDD works closely with public agencies and private not-for-profit organizations to achieve desired outcomes as specified in the Five Year State Plan.

This is one of 14 funds across DHHS that assures the capacity to deliver health and safety services to children and/or adults. Rural and underserved NC communities benefit from the placement of primary medical, psychiatric, and dental providers through this fund. Each candidate responding to statewide and national marketing efforts is interviewed and matched to a site that best meets his or her interests. To augment recruitment, incentives are offered through a loan repayment program. Beginning in SFY 2015, federal and philanthropic funds have been secured to augment the loan repayment program to include midlevel psychiatric providers who agree to practice in designated Health Professional Shortage Areas for two years.

**230034-DHSCENADM 2435 STATE PSYCHIATRIC EHR BC 24410**

The purpose of this fund is to capture expenditures related to the DSOHF Hospital Electronic Health Record Systems Project (EHR). In the Appropriations Act of 2021, General Assembly has provided funding for an electronic health record (EHR) system development and technology upgrades for the three state operated hospitals (Central Regional, Broughton and Cherry Hospitals) to enhance services and patient safety. The proposed initiative will replace the legacy Vista EHR implementation at Central Regional Hospital, custom-developed in-house standalone applications in all hospitals; and automate paper-based medical records and physician orders at Broughton and Cherry.

**133500-DHHSAGAD 1370 SENIOR NUTRITION/ FAN BC 14411**

This is one of 9 funds across DHHS that assures that families at risk of economic challenges receive health and safety benefits. Congregate meals are served in a group setting, such as in a senior center or church hall. The meal (typically lunch) must meet 1/3 of the Recommended Daily Allowance (RDA) for nutrition. Services are available through Home and Community Care Block grant (HCCBG) providers in counties and benefits adults age 60 and over, with an emphasis on minorities and socially and economically needy seniors. Older adults who attend congregate meals sites and live in a county that is served by a state-certified farmers' market are also provided a voucher through the US Department of Agriculture to purchase fresh locally grown produce from market vendors. Operation Fan Heat Relief (OFHR) provides free fans through private contributors during the summer for those 60 and older whose health, safety and comfort is at risk from extended heat in their home.

**134504-DHHSAGAD 1452 ALZH & DEMENTIA SUPPORT BC 14411**

This is one of 9 funds across DHHS that assures that adults with health and safety needs that could result in out-of-home placement receive support services to enable them to continue to live at home and/or community. The Alzheimer's and Dementia Support Services provides outreach, information and referral, training and supportive services to individuals and families living with Alzheimer's disease and related disorders. The services aim to help families provide quality long-term care in the home. The Project C.A.R.E. (Caregiver Alternatives to Running on Empty) component employs family consultants with expertise in dementia to provide support services. The Family Caregiver Support Program (FCSP) works in partnership with Area Agencies on Aging, local service providers and trained volunteers. Basic services for family caregivers include: information and access to services; individual counseling, support groups and caregiver training; respite care to provide a break from caregiving responsibility; supplemental services to assist in paying for a short-term or one-time service.

**134510-DHHSAGAD 1454 KEY PROGRAM BC 14411**

This is one of 9 funds across DHHS that assures that adults with health and safety needs that could result in out-of-home placement receive support services to enable them to continue to live at home and/or community. Key Program Assistance operates in partnership with the NC Housing Finance Agency by creating affordable rental units set aside for extremely low-income households headed by adults with disabilities. The Key Program provides operating assistance to properties that do not have another form of rental assistance to assure the units are affordable to persons with incomes as low as Supplemental Security Income (SSI).

**14411-DHHS - Aging and Adult Services**

**134800-DHHSAGAD 1480 SR COMM SERV EMPLOYMENT BC 14411**

This is one of 7 funds across DHHS that assures that families who are experiencing economic jeopardy receive employment services to mitigate health and safety risks. This service places older, low-income adults (age 55 and over, at or below 125% of the federal poverty level) who have poor employment prospects because of multiple factors such as lack of skills or transportation, low literacy or disabilities, in part-time assignments at locations such as social services agencies, health departments, councils on aging, nutrition sites and senior centers. Once they acquire new skills, they receive support transitioning into the regular work force.

**131008-DHSDSS 1110 ADMINISTRATION BC 14440**

Service Support has been standardized across all DHHS divisions and offices when possible to have a uniformed presentation that will provide consistent data and information. These primary service support functions include human resources, budget and analysis, purchasing and contract management, information technology, along with the management, policy development, and evaluation of services and activities necessary for the Division to achieve its outcomes. This fund had been renamed to Service Support to reflect that standardization.

**131201-DHSDSS 1160 CHILD WELFARE TRAINING BC 14440**

This is one of 14 funds across DHHS that assures the capacity to deliver health and safety services to children and/or adults. Child Welfare training is provided to county child welfare staff that addresses the knowledge and skills needed to complete their daily tasks in the areas of child protective services, foster care, on-going child welfare services, and adoption. The Child Welfare Collaborative provides financial, educational, and employment support for selected social work students who will commit to work in a North Carolina county department of social services; thereby increasing the number of well trained and highly committed BSW and MSW social workers.

**14440-DHHS - Social Services - General**

**133502-DHHS DSS 1371 CHILD SUPPORT ENFORCEMENT BC 14440**

This is one of 9 funds across DHHS that assures that families at risk of economic challenges receive health and safety benefits. Child Support Enforcement (CSE) services help families collect child support payments to ensure that both parents financially support their children. CSE offers assistance in the following areas: locating noncustodial parents; establishing paternity for children born outside of marriage; establishes the legal father of the child; establishes support obligations through a court order; and collects and distributes support. Access and Visitation activities provide fatherhood initiatives to improve relationships between noncustodial parents and their children. The goal is to increase collections for children and families and to help develop access and visitation by noncustodial parents with their children.

**134101-DHHS DSS 1411 CASE MGMT & COUNSELING BC 14440**

The service funding for Case Management and Counseling administered by the Division of Aging and Adult is contained in this fund which is one of 9 funds across DHHS that assures that families at risk of economic challenges receive health and safety benefits. Case Management and Counseling, provided by local county departments of social services, uses an array of services to help individuals and families live independently which are provided in a coordinated manner. They include: health support services, personal and family counseling, individual and family adjustment services to help cope with problems such as homelessness, school difficulties, drug addiction and alcoholism, and neglectful or abusive family members, representative payee services to manage money for people who are impaired; and training and employment services without regard to income. Case managers determine which services are best suited to meet the needs of the individuals or families through functional assessment of areas such as mental and emotional health, the environment and social support systems of the person; and then develop a plan for services. Quarterly reviews and annual reassessments and updates to service plans as needed are conducted.

**134300-DHHS DSS 1430 CHILD PROTECTIVE SERVICES BC 14440**

This fund assures that children with health and safety needs that could result in out-of-home placement receive support services to enable them to continue to live at home and/or community. Child Protective Services (CPS) helps prevent further harm to children from abuse, exploitation or neglect by a parent or caretaker. CPS workers in county departments of social services (DSS) accomplish this through: assessing suspected cases of abuse and neglect; providing in-home counseling and supportive services to help children stay at home with their families; coordinating community and agency services for the family; petitioning the court for removal of the child, if necessary.

The service funding for Medical Administrative Claiming is administered by the Divisions of Social Services and of Aging and Adult Services. This fund code captures costs associated with the case management activities of County Department of Social Services to assist individuals in accessing Medicaid services under NC State Medicaid Plan. The Adult Home Specialist Fund, also a part of this service, assists county social services departments with financial support for monitoring adult care homes. **135100-DHSDSS 1531 ADOPTION SERVICES BC 14440**

This is one of 2 funds across DHHS that assures that children being served in out-of-home placements receive support services designed to assist them in their return to home and/or community living. Adoption Services help children whose birth parents cannot care for them to become part of a new family by recruiting, assessing and selecting adoptive homes; supporting and sustaining the placement and facilitate the finalization of the adoption. The Special Children Adoption works to increase the placement of special need children into permanent homes.

The service funding for the State Adult Care service administered by the Division of Aging and Adult Services is contained in this fund. State-County Special Assistance (SA) helps pay the cost of room and board in certain licensed residential care facilities for eligible individuals who are either age 65 and older, disabled according to Social Security standards, or any age and legally blind. Adults may be able to receive SA In-Home which allows the adult to remain at home and is available statewide.

The purpose of this fund is to record and track the expenditures and receipts associated with all supplemental payments made to hospitals, including Disproportionate Share Hospital program payments. If a payment is made to a hospital outside of what they receive via claim submission, this fund is used to capture that expenditure and the associated federal receipt, along with any transfers, assessments, or intergovernmental transfers from the hospitals. This fund also records the Medicaid transfer of Non Tax Revenues to the NC Office of State Controller.

**230611-DHHSBDHH 2617 B/E FEDERAL VENDING BC 24450**

This fund is the site where funds collected from vending on federal property are deposited. Federal regulations allow for the deposit of these funds when the vending location does not generate enough income to support employment of a licensed blind operator on that site. The funds are rebated back to the pool of operators at the end of the year. Funds are not expended from the fund nor is there an annual target.

This fund is comprised of money received from commissions of vending machines in state or local government buildings when the site is not able to financially support the employment of a blind licensed operator to manage the location. State statute allows for DSB to collect these commissions and to use them in support of programs within the division including Rehabilitation, Independent Living, and Medical Eye Care. There is no target for bringing money into the fund each year nor is there a budgeted amount to be spent each year as program needs vary annually and funds are moved from this fund as needed to meet program requirements.

This fund is used to purchase aids and appliances used by people with vision loss. In order to maximize funding the division is able to buy in quantity from the national vendors of these items rather than having each case manager purchase these items individually for consumers. There is no target for purchasing as the items are purchased based on need as the supply is depleted. Items that are not as much in demand are dropped from the inventory and new items added as they are developed.

**131205-DHSHSR 1161 STATEWIDE HEALTH PLAN BC 14470**

The purpose of Statewide Health Planning is to ensure that medical facilities are built only when there is a need for them. This is done by publishing an annual projection of the state's need for new buildings and services; reviewing Certificate of Need applications; and issuing tax-exempt bonds to finance construction of needed facilities. The Certificate of Need service receives and reviews applications for all new institutional health services to determine the need for new or additional healthcare facilities and services.

**131006-DHSDPH 1110 ADMINISTRATION BC 14430**

Service Support has been standardized across all DHHS divisions and offices when possible to have a uniformed presentation that will provide consistent data and information. These primary service support functions include human resources, budget and analysis, purchasing and contract management, information technology, along with the management, policy development, and evaluation of services and activities necessary for the Division to achieve its outcomes. This fund has been renamed to Service Support to reflect that standardization.

**131101-DHSDPH 1151 FORENSIC TESTS ALCOHOL BC 14430**

This is one of 12 funds across DHHS that assures that children and/or adults are protected from harm through enforcing and communicating uniform regulatory standards. Forensic Tests for Alcohol works to reduce deaths, injuries and public health care costs related to impaired driving on North Carolina roads by conducting alcohol and drug training for law enforcement officers; conducting DWI checkpoints (including operating Breath Alcohol Testing Mobile Units); working with high schools, colleges and public health communities to educate young drivers about the dangers of drinking and driving.

This is one of 12 funds across DHHS that assures that children and/or adults are protected from harm through enforcing and communicating uniform regulatory standards. Environmental Health regulation protects the health of the public through protection and enforcement activities in food service and lodging, childhood lead poisoning and surveillance, child care centers and institutions, on-site water protection (septic system/well permitting and inspection), tattooing, and public swimming pools. Additionally, Environmental Health provides emergency preparedness and response and helps protect the food supply from intentional contamination through food defense initiatives.

**131302-DHSDPH 1173 VITAL RECORDS BC 14430**

This is one of 6 funds across DHHS that assures that children and/or adults receive needed and effective health and safety services through data tracking. The Vital Records service collects the records of important human events, including births, deaths, marriages, divorces and fetal deaths. This service certifies that each record meets state vital event law requirements and certifies each event as a legal document. This service maintains the state's repository for the original vital events records, archives them in a systematic manner so the records can be retrieved as needed by citizens.

This is one of 6 funds across DHHS that assures that children and/or adults receive needed and effective health and safety services through data tracking. The Occupational and Environmental Epidemiology Branch monitors hazards in the environment and workplace to develop strategies and deliver interventions which prevent exposures to people working, living in and visiting our state. Communicable Disease and Surveillance works to prevent and control the spread of STDs, TB, HIV and Hepatitis C and providing care services for North Carolina residents infected with (or affected by) these diseases. It also tracks cases of foodborne diseases (transmitted through contaminated food or water) and vector borne diseases (oftentimes transmitted by insects). Injury and Violence Prevention gathers information and addresses the major statewide issues of injury and violence and works to implement the statewide strategies for injury and violence prevention.

**132001-DHSDPH 1261 PH PROMOTION BC 14430**

This is one of 12 funds across DHHS that assures that children and/or adults have access to consistent and accurate health and safety information. Physical Activity and Nutrition helps to make communities and worksites healthier places to live, earn and learn by encouraging changes to policies and environments to help community members eat smart, move more and achieve a healthy weight. Training in obesity prevention and technical help to local health departments and community coalitions is provided along with conducting a marketing and communications campaign to prevent obesity in North Carolina. This is one of 12 funds across DHHS that assures that children and/or adults have access to consistent and accurate health and safety information. Public Health Preparedness and Response, Chemical Preparedness and Release Surveillance, and Industrial Hygiene services protect North Carolinians by increasing the public health system's ability to prepare for, detect, respond to and recover from natural or manmade public health emergencies; monitoring uncontrolled or illegal acute releases of toxic substances; evaluating biological, chemical and physical hazards, primarily in the workplace and public spaces, and recommending ways to control them.

**133201-DHHSDPH 1312 MEDICAL AND RISK ASSESS BC 14430**

This is one of 3 funds across DHHS that assures that adults at risk of compromised health and safety receive support services to mitigate those risks. This service assesses the risks of exposure to contaminants in air, water, and soil as well as workplace health and safety hazards; investigates exposures to these hazardous substances; and promotes interventions to reduce environmental and occupational contributions to diseases.

**133401-DHSDPH 1331 IMMUNIZATION BC 14430**

This is one of 5 funds across DHHS that assures that children at risk of compromised health or safety which could jeopardize their ability to remain and live successfully in the community receive support services to mitigate those risks. Activities include vaccine distribution and administration; purchases and distributes vaccines to health care providers; monitors proper vaccine storage, handling and safety; maintains an electronic registry of immunization activity; and monitors the occurrence of vaccine-preventable diseases which helps ensure that children birth through age 18 are appropriately immunized and prevent the spread of disease.

**133403-DHSDPH CHILDREN'S HEALTH SERVICES**

This is one of 5 funds across DHHS that assures that children at risk of compromised health or safety which could jeopardize their ability to remain live successfully in the community receive support services to mitigate those risks. 1) The Teen Pregnancy Prevention Initiatives (TPPI) works to prevent teen pregnancies by funding projects in local health departments and community-based organizations. 2) Genetics and Newborn Screening provides follow-up for newborns screened for problems that are not apparent at birth so that they can receive early diagnosis, treatment and follow-up. 3) The state level functions of the Child and Family Support Teams in this fund have been eliminated by Session Law 2014-100. 4) School Health services provide direct services, program development, health education, consultation and technical assistance to strengthen and support community school nurses and school health centers.

The Revenue Clearing Fund records accounting transactions that detail by funding source the revenue due from federal and other funding agencies as a result of expenditures that earned those dollars in the operating funds of the agency. Actual receipts received from funding agencies are also recorded in this fund. The revenue clearing fund balance indicates the current status of the agency's accounts receivable for the funding sources reflected in the clearing account at any point in the fiscal year.

Service Support has been standardized across all DHHS divisions and offices when possible, to have a uniformed presentation that will provide consistent data and information. These primary service support functions include human resources, budget, and analysis, purchasing and contract management, information technology, along with the management, policy development, and evaluation of services and activities necessary for the Division to achieve its outcomes. This fund has been renamed to Service Support to reflect that standardization

This is one of 3 funds across DHHS that assures that children at risk of compromised health and safety receive support services to mitigate those risks. The purpose of these services is to provide nutrition education, health care referrals, breastfeeding promotion and support, and nutritious supplemental foods to qualifying women and children. There are two services in this fund: (1) Special Supplemental Nutrition Program for Women, Infants and Children Program (WIC) which provides benefits of nutritious foods to supplement diets, information on health eating including breastfeeding promotion and support and referral to health care for low income pregnant, postpartum, and breastfeeding women, infants and children up to age 5 who are at nutritional risk and 2) The Farmer's Market Nutrition Program issues coupons through local WIC agencies so eligible women and children can buy fruits and vegetables at participating farmers markets.

**14460-DHHS - Mental Health/Developmental Disabilities/Substance Abuse Services**

**131010-DHSMENHLTH 1110 ADMINISTRATION BC 14460**

Service Support has been standardized across all DHHS divisions and offices when possible to have a uniformed presentation that will provide consistent data and information. These primary service support functions include human resources, budget and analysis, purchasing and contract management, information technology, along with the management, policy development, and evaluation of services and activities necessary for the Division to achieve its outcomes. This applies to both the delivery of community services and state operated facilities. This fund has been renamed to Service Support to reflect that standardization.

This is one of 12 funds across DHHS that assures that children and/or adults have access to consistent and accurate health and safety information. The Enforcing Underage Drinking Laws (EUDL) supports efforts by communities to prevent the sale of alcohol to minors (under age 21) and to prevent minors from buying or consuming alcoholic beverages. This is accomplished by providing grants, education and technical assistance to community collaboratives. A collaborative (or coalition) is an organized alliance among individuals or groups within a community joining together for a common cause. The collaboratives support enforcement of underage drinking laws by monitoring retailers and through statewide efforts to raise awareness of the potential harm associated with underage drinking. Enforcing Underage Drinking Laws (EUDL) is funded by the Federal Office of Juvenile Justice and Delinquency Prevention implements various strategies to prevent underage drinking.

**134603-DHSMENHLTH 1463 SUB ABUSE SERVICES-TASC BC 14460**

This is one of 6 funds across DHHS that assures that adults with health and safety needs that could result in out-of-home placement receive treatment services to enable them to continue to live at home and/or community. Substance abuse services for adults are designed for individuals over age 18 with identified substance abuse issues. Services include: detoxification, outpatient therapy, inpatient treatment, crisis stabilization, halfway house services, behavioral skills training to refrain from substance use, health education about risks of IV drug use, support and education for consumers and families. Substance abuse services for pregnant women and women with children include social services, vocational rehabilitation, mental health services, domestic violence services and linkage with community programs. Work First and CASA Works address substance abuse recovery and employment for women. Treatment Accountability for Safer Communities (TASC) services address addiction, mental illness and criminal behavior among the criminal offender population with the aim of reducing criminal activity and drug use among this population. TASC provides assessment, treatment matching, referral, placement, and care management.

This is one of 3 funds across DHHS that assures that children being served in out-of-home placements receive treatment services designed to assist them in their return to home and/or community living. Central Regional Hospital (CRH) / Butner Campus, provides inpatient psychiatric services to children and adolescents who cannot be served in the community because of the severity of their symptoms. Inpatient services include: crisis stabilization (immediate help for a mental health emergency), assessment, medical care, psychiatric treatment, patient advocacy, social work services, discharge planning and links to the community. Whitaker School offers inpatient psychiatric services to children and adolescents aged 13 to 18 whose mental health needs cannot be met in the community. Whitaker School provides integrated, person-centered treatment to children and adolescents with psychiatric disorders with a focus on safety while promoting wellness and offering support to patients and their families consistent with the principles of recovery and trauma informed care.

This is one of 3 funds across DHHS that assures that children being served in out-of-home placements receive treatment services designed to assist them in their return to home and/or community living. The Wright School serves children from across the state ages 6-12 with emotional, behavioral, educational, intellectual, social, or neurological needs in a non-medical, alternative program which emphasizes the Re-education model of services and mobilizes the home community's resources to build a network of services to meet the child's individual needs and the needs / expectations of their family, school and community. Children receive individual treatment to increase academic, behavioral and social skills.

Broughton Hospital provides inpatient psychiatric services to adults and children who cannot be served in the community because of the severity of their symptoms. Inpatient services include: crisis stabilization (immediate help for a mental health emergency), assessment, medical care, psychiatric treatment, patient advocacy, social work services including counseling, discharge planning and links to the community. Broughton Hospital also operates a Deaf Unit for adults who need inpatient psychiatric or substance abuse services and are deaf/hard of hearing.

This is one of 12 funds across DHHS that serves adults, 21 years or older, that have medical conditions requiring 24 hour specialized nursing care and that can not be served in a traditional community nursing home. Longleaf provides nursing care and other rehabilitative services to adults in the eastern and central regions of the state with chronic, complex medical conditions that co-exist with neurological conditions often related to a diagnosis of a psychiatric illness or other psychological conditions that do not require an acute level of psychiatric care. Medical and residential services are also provided to adults with a diagnosis of Alzheimer's or related dementia whose assaultive and combative behavior have resulted in a denial of care in traditional nursing home settings.

This is one of 12 funds across DHHS that assures that adults being served in out-of-home placements receive treatment services designed to assist them in their return to home and/or community living. Black Mountain Center provides specialized medical, mental health, and intellectual and/or developmental disability services to adults that cannot be served in the community in the western and central regions of the state with chronic, complex medical conditions that co-exist with neurological conditions often related to a diagnosis of an intellectual and/or developmental disability, and individuals with Alzheimer's disease or other related dementias. Services include: treatment and support to adults with developmental disabilities and medical conditions of a serious, chronic nature, requiring 24/7 medical and nursing care; treatment and support services to adults with Alzheimer's or related dementia whose assaultive and combative behaviors have resulted in a denial of care in traditional nursing home settings; respite services to families and other caregivers who need temporary relief from the pressures of caring for a person with Alzheimer's disease or other types of dementia.

This is one of 12 funds across DHHS that assures that adults being served in out-of-home placements receive treatment services designed to assist them in their return to home and/or community living. O ' Berry provides treatment and other services to aging adults in the eastern and central regions of the state with chronic, complex medical conditions that co-exist with neurological conditions often related to a diagnosis severe and persistent mental illness (including but not limited to gero-psychiatric disorders or dementia, such as Alzheimer's requiring residential, medical and nursing care. Services are also provided adults with a diagnosis of Alzheimer's or related dementia whose assaultive and combative behavior has resulted in a denial of care in traditional nursing home settings.
