1. Strategic Plan Executive Summary

Attorney General Josh Stein leads the North Carolina Department of Justice and the important work its dedicated employees perform.

Our office’s primary functions include:
- protecting North Carolina consumers and vulnerable populations;
- providing legal representation to state agencies;
- assisting local law enforcement in fighting crime and prosecuting cases;
- and managing training and standards for law enforcement.

Protecting North Carolina Consumers and Vulnerable Populations

Our office takes seriously its role to protect North Carolina’s consumers. We do so by working to prevent scams, investigating and taking legal action against corporations that break the law, combatting Medicaid fraud, prosecuting tax cheats, and confronting the opioid crisis.

Providing Legal Representation to State Agencies

Attorneys and staff in our Legal Service’s Division provide legal advice and representation to state government departments, agencies, and boards/commissions. This work ranges from defending the State against liability claims and in contract disputes to protecting the environment in order to maintain clean air and water.

Assisting Local Law Enforcement in Fighting Crime and Prosecuting Cases

Our Department protects people from crime by prosecuting complex criminal cases and handling all criminal appeals from state trial courts. The State Crime Lab works closely with the state’s criminal justice partners and analyzes evidence to convict the guilty and exonerate the innocent.

Managing Training and Standards for Law Enforcement

DOJ supports local law enforcement efforts through The North Carolina Justice Academy which provides training for officers and Criminal Justice Training and Standards and Sheriffs Standards which certify law enforcement officers.
2. Mission, Vision, and Values

The Department of Justice undertook an effort in 2019 to solidify our mission statement, vision, and values. As part of that work, we conducted focus groups and surveys to ensure that these guiding principles reflect our organization as a whole.

Potential Initiatives

Sexual Assault Kits:

Continue to obtain funds to test untested sexual assault kits. Work with Governor and Legislature to ensure the State Crime Lab has the resources needed to keep up with increases in sexual assault kit submissions and quickly process evidence for local law enforcement.

Legal Services Staffing:

Work with the Legislature to address staffing needs that have arisen from the $10 million budget cut in 2017. In order to effectively handle criminal appeals for the State as well as serve the State’s departments, agencies, and boards and commissions, restoring a large portion of the budget cut is necessary.

Collaborative Opportunities

Identify opportunities for statewide or inter-agency collaborative initiatives that would yield significant efficiencies or improve effectiveness in State programs.

Opioid Settlements:

Our office is partnering with the NC County Commissioners’ Association, NC League of Municipalities, Legislature, and Governor’s Office to ensure settlement funds from opioid manufacturers and distributors is used as efficiently and effectively as possible to address the opioid epidemic and provide treatment and abatement services.
