MEMORANDUM
TO: Department Heads and Chief Financial Officers
FROM: Charles Perusse
SUBJECT: FY 2022-23 Repairs and Renovations Requests

S.L. 2022-74, Sec. 40.1 appropriated $200 million to the Reserve for Repairs and Renovations (R&R) to State Agencies to repair and renovate State General Fund supported facilities. The Office of State Budget and Management (OSBM) is required to allocate $3 million to specific projects pursuant S.L. 2022-67. There is $197 million available for the repair and renovation of state agency facilities. Only projects that meet the requirements of G.S. 143C-8-13 are eligible for funding. Projects that are not eligible include expansion of square footage (beyond mechanical and other engineering requirements), master planning, reserves, and advance planning.

Furthermore, to implement Executive Order 80, OSBM is requesting that agencies target projects that reduce energy usage per square foot under G.S. 143C-8-13(7) and G.S. 143-64.12. OSBM and the Department of Environmental Quality’s Utility Savings Initiative will coordinate on the allocation of these funds.

Agencies are encouraged to utilize R&R monies for projects that substantially increase the useful life of a building or replace a system and not for routine maintenance or small repairs. OSBM is encouraging every agency to use funds available for small repairs and renovations projects under $100,000 or to group small projects into a more impactful larger project. OSBM will still consider small project requests from agencies on a case-by-case basis and with an explanation as to why General Funds or receipts are not available.

OSBM will evaluate each agencies request based on a variety of factors. The factors include:

1. Applying a formula to estimate an initial, internal, distribution of funds. This formula includes agency allocated building square footage, condition, value, and age.
2. The current progress of executing past Repairs and Renovations projects.
3. The existence of Repairs and Renovations projects that were funded elsewhere in various appropriations bills. For example, if an agency received several large renovation projects, they may receive less Repairs and Renovations funds from this year’s allocation from the Reserve.
4. The availability of non-General Funds to fund Repairs and Renovations projects.
5. Requests that are beyond what can be reasonably funded will not be considered.
OSBM is asking each agency to only request what can reasonably be funded to not overburden the State Construction Office with unnecessary cost estimates. However, OSBM understands that each agency faces large backlog of repairs and renovations needs. OSBM is asking each agency submit the summary dollar value total of its Facilities Assessment and Condition Program to accompany the request for specific projects funded under this cycle.

**Anticipated Schedule:**

- **Sept. 12, 2022** Distribute R&R Memorandum
- **Sept. 12, 2022** Agencies may budget projects receiving a specific allocation under Sec. 40.1(c1) of S.L. 2021-180
- **Sept. 13, 2022** Agency R&R forms and instructions distributed by OSBM to Agency Capital Coordinators
- **October 14, 2022** Deadline for submitting R&R requests to OSBM
- **October 17-28, 2022** OSBM meets individually with Agency Budget Officers about requests
- **November 1, 2022** OSBM reports to the Fiscal Research Division on recommended allocations
- **November 2, 2022** R&R funds available to State Agencies

Please have your submission to OSBM by the October 14, 2022 deadline. If you have any questions, please contact Mark Bondo, Brian Farmer, and Cole Justad in OSBM at (984) 236-0600.

Thank you.
