30 Purpose of grant or amendment	The Child Mental Health Team of the Division of MH/DD/SAS is applying for a Duke Endowment Grant entitled Child and Family Well-Being Grant. The Duke Endowmen
30 Purpose of grant or amendment	The Child Mental Health Team of the Division of MH/DD/SAS is applying for a Duke Endowment Grant entitled Child and Family Well-Being Grant. The Duke Endowmer is a philanthropic/non-governmental organization who provides grant money to expand opportunities to vulnerable children. We have submitted a proposal for \$7.3 millio over a 3-year period. Awardee announcements will be made by 5/7/2021. This grant will allow us to establish seven (7) time-limited DMH Regional Coordinating Supervisor positions and one (1) time-limited DMH Regional Coordinating Supervisor position who will help facilitate the escalation of crisis situations for youth involved with DSS ages 3-21 who are in the local Emergency Departments (EDs) or DSS offices for excessive periods of time, for those who are at-risk of disrupting their current residential placemer and for those with difficulties being discharged improperly from PRTFs due to age. These would be transitional positions for 3 years to ensure the development/improvement of local crisis escalation protocols, crisis case barriers are brought to the attention of the insurance plans, and recommendations for exploring options to resolve the issues are provided (i.e. utilizing EPSDT services or wrapping around services and supports) as the transition to the new insurance plans occur. The grant will help us develop one (1) time-limited DMH MORES Project Director who will lead the MORES pilot project. This is an enhanced mobile intervention targeting children ages 3-21 and their families who are experiencing escalating emotional or behavioral symptoms or traumatic circumstances which have compromised the youth's ability to function at their baseline within their family, living situation, school and/or community environments. This program will support the enhancement of the current mobile crisis response to be more youth and family focused in meeting behavioral health crisis needs. Some proposed activites included in the grant application are: 30-minute urban area response/60-minute rural
31 Comments	 Provide stabilization services up to 4 weeks post crisis (as needed) to ensure children are connected to behavioral health services. Assessment of parent/caregiver behavioral health and social determinants of health needs and connection to community resources. Child and family specific training for mobile crisis providers and Family Peer Partners. Since this training will be offered virtually, it will be open to all mobile crisis team and Family Peer Partners statewide. The training will include evidence-based assessment and safety planning for children, adolescents, and families. Establish a Learning Collaborative between the different teams/sites, including LME-MCO and State staff (DMH/NC Medicaid) Implementation support from a local agency to support each response team by providing ongoing training and coaching to build capacity and to develop and sustain the mobile response and stabilization team's family engagement focus. Conduct a formal evaluation. This evaluation will focus on up to 4-week post crisis follow-up. DMH will also less formally analyze the data for trends, outcomes, and implementation barriers

Return completed form as email attachment and indicate in message that proper agency sign-offs have been obtained. Contact your OSBM budget analyst if you have questions.
