

2017

## North Carolina Rules with Economic Impact

- **Schedule of Anticipated Rule Actions**
- **Rules that Affected Local Governments**

Prepared by the North Carolina Office of State  
Budget and Management,  
Office of the Governor

March 2017

[THIS PAGE INTENTIONALLY LEFT BLANK]

## Background

On May 17, 1994, Governor James B. Hunt Jr. issued the Executive Order No. 49 entitled “Fiscal Notes on Administrative Rules Affecting Local Governments.” The Executive Order set forth policies and procedures for state agencies to follow when proposing permanent rules with an impact on local governments. Through Session Law 1995-415, the General Assembly incorporated these policies, as well as other changes, in [G.S. 150B-21.28](#) of the [Administrative Procedure Act](#) (APA). The revised APA increases state agencies’ awareness of the effect proposed rules would have on local governments and enables local governments to be more involved in estimating the fiscal impact of permanent rules on local budgets.

According to requirements in the APA, the North Carolina Office of State Budget and Management (OSBM) prepares annually a report containing a schedule of anticipated rule actions in the upcoming fiscal year, as well as a summary of the projected economic impact on local governments of rules adopted in the preceding fiscal year. OSBM provides a copy of this annual report to the Governor, the General Assembly, the North Carolina Association of County Commissioners, and the North Carolina League of Municipalities, as required by the APA.

## Outline

### *I. Summary*

The Summary section contains statistics on anticipated rule actions in the following fiscal year that might have an economic impact, and rules adopted in the previous year with projected impact on local governments.

### *II. Schedule of Anticipated Rule Actions, July 1, 2017 – June 30, 2018*

This section contains information on rules state agencies expect to adopt in SFY 2017-18 that would have an impact on: i) state expenditure or distribution of funds; ii) local government revenues or expenditures; or iii) would create a substantial economic impact. Substantial impact is statutorily defined as an aggregate financial impact to all parties involved of \$1,000,000 or greater over a 12-months period ([G.S. 150B-21.4\(b1\)](#)). The information in this section is organized by agency and agency division, and it includes the rule title, the North Carolina Administrative Code (NCAC) citation, staff contact information, proposed action, anticipated impact, and a brief description of the rule change.

### *III. Rules that Affected Local Governments, Adopted July 1, 2015 – June 30, 2016*

The last section provides information on rules North Carolina agencies adopted in SFY 2015-16 that have a projected impact on local governments. The information is organized by agency and by adoption date, and it includes the rule title, NCAC citation, staff contact information, and expected net impact on local government revenues and expenditures over a five-year period.

## I. Summary

In SFY 2017-18, state agencies anticipate taking action on 70 different rule packages, based on reports submitted by more than 80 percent of agencies. This report uses the terms “rule change” or “rule” to refer to a package of permanent individual rules an agency proposes to adopt together that constitute a new policy. Therefore, the number of individual rules the agencies plan taking action on is higher than the number noted in this report. See Table 1 below for a breakdown by agency.

The 70 rule actions agencies anticipate making in SFY 2017-18 is a larger amount than the 53 actions agencies anticipated engaging in during the current fiscal year (SFY 2016-17), based on information presented in the [2016 NC Rules with Economic Impact Report](#). Approximately 96% of the 70 anticipated rule actions with economic impact for the following year include an amendment to existing regulations, nearly a third of which are rules the agencies are required to readopt by [G.S. 150B-21.3A](#). New rule adoptions make up 20% of the anticipated actions, and 10 percent include rule repeals (see Table 2).

**Table 1. Number of Anticipated Rules with Economic Impact in SFY 2017-18**

<i>Agency</i>	<i>Number of Rules</i>	<i>Percentage of Total</i>
Department of Health and Human Services	32	46%
Wildlife Resources Commission	15	21%
Department of Environmental Quality	9	13%
Office of State Human Resources	6	9%
Department of Commerce	4	6%
Department of Justice	2	3%
Board of Barber Examiners	1	1%
Department of Labor	1	1%
<b>Total Anticipated Rules</b>	<b>70</b>	<b>100%</b>

**Table 2. Number of Anticipated Rules by Type of Action**

<i>Type of Impact</i>	<i>Number of Rules</i>	<i>Percentage of Total</i>
Amend	36	51%
Amend during Readoption	19	27%
Adopt	2	3%
Adopt and Amend	6	9%
Adopt, Amend, and Repeal	5	7%
Repeal and Amend	1	1%
Repeal and Adopt	1	1%
Repeal	0	0%
<b>Total Anticipated Rules</b>	<b>70</b>	<b>100%</b>

The Department of Health and Human Services (DHHS), the Wildlife Resources Commission (WRC), and the Department of Environmental Quality (DEQ) anticipate carrying out the majority of the rulemaking in SFY 2017-18, with 32, 15, and 9 rule package actions, respectively. Note that 16 of the

DHHS actions and three of the DEQ actions are readoptions of existing regulations, which are required for the agency to comply with the review of existing regulation provisions in [G.S. 150B-21.3A](#).

As agencies continue to engage in the existing rule review process, there might be additional rulemaking actions than those contained in this report. Based on the [Readoption Schedule](#) published by the Office of Administrative Hearings (as of February 19, 2017), agencies are planning to readopt another 287 individual rules in the following fiscal year. At this point, it is unclear how many of those rule readoptions will result in an economic impact. Since agencies may still be in the planning stages for their readoption packages, they may not be able to state whether the rules will be readopted with substantive changes. Therefore, it is possible for the total number of rule actions with economic impact to be higher in the upcoming year than the 70 reported here.

Table 3 presents the number of anticipated rule actions in the next fiscal year that agencies estimate will have a state government, local government, or substantial economic impact, which is defined in [G.S. 150B-21.4\(b1\)](#) as an aggregate economic impact of \$1 million or more over a 12-months period. In comparison to the estimates for the current fiscal year (see the [2016 NC Rules with Economic Impact Report](#)), agencies report an increase in rules that might have an impact on state or local governments, and a small decrease from 12 to 11 rules with substantial economic impact. Of the rules that will be readopted per [G.S. 150B-21.3A](#), seven will have state government impact, six will have local government impact, and five will have substantial impact. For more details, see Table 6 in Section II of this report.

**Table 3. Number of Anticipated Rules by Type of Impact\***

<i>Type of Impact</i>	<i>Number of Rules</i>	<i>Percentage of Total Rules</i>
State Government	43	61%
Local Government	29	41%
Substantial Economic Impact	11	16%

\* Note the percentages above do not add up to 100% because rules may have more than one type of impact (see Table 6 below for details). Also, unknown impacts (“U” in Table 6) are not included in this table.

In SFY 2015-16, state agencies adopted 24 rule changes estimated to have an impact on local governments (either a cost or benefit), as shown in Table 4.

**Table 4. Number of Rules Adopted in SFY 2015-2016 with Local Government Impact, by Agency**

<i>Agency</i>	<i>Number of Rules</i>	<i>Percentage of Total</i>
Department of Environmental Quality	7	29%
Department of Health and Human Services	7	29%
Wildlife Resources Commission	3	13%
Department of Justice	2	8%
Department of Commerce	1	4%
Department of Information Technology	1	4%
Department of Labor	1	4%
Department of Natural and Cultural Resources	1	4%
Office of Administrative Hearings	1	4%
<b>Total Adopted Rules</b>	<b>24</b>	<b>100%</b>

Table 5 below presents the estimated impact on local governments over a five-year period resulting from the rules adopted in SFY 2015-16. The net present value of these impacts on local governments is approximately \$70 million in welfare costs (computed using a 7% discount rate, as mandated in [G.S. 150B-21.4\(b1\)](#) for fiscal note analyses). The majority of these costs arise from a DIT rule that set standards for 911 Public Safety Answering Points. The DIT rule was necessary to codify existing policy and operating practices into rule and to respond to changes in S.L. 2007-383 and S.L. 2010-158.

Note there may be additional costs and benefits to local governments during the next five years as a result of these rule changes that are not quantified. See Table 7 in Section III of this report for more detailed information on these rule changes.

**Table 5. Estimated Impact on Local Governments of Rules Adopted by Agencies in SFY 2015-2016, (in thousands of \$)\***

<i>Agency</i>	<i>SFY 2015- 16</i>	<i>SFY 2016- 17</i>	<i>SFY 2017- 18</i>	<i>SFY 2018- 19</i>	<i>SFY 2019- 20</i>
Department of Commerce			Unquantified		
Department of Environmental Quality	\$5	\$96	\$96	\$96	\$96
Department of Health and Human Services	-\$188	-\$190	-\$172	-\$171	-\$170
Department of Information Technology	-\$15,815	-\$15,420	-\$15,188	-\$14,961	-\$14,946
Department of Justice	-\$1,208	-\$1,208	-\$61	-\$61	-\$61
Department of Labor			Unquantified		
Department of Natural and Cultural Resources			Unquantified		
Office of Administrative Hearings			Unquantified		
Wildlife Resources Commission	-\$2	-\$3	\$0	\$0	\$0
<b>Total Impact of Adopted Rules</b>	<b>-\$17,205</b>	<b>-\$16,721</b>	<b>-\$15,325</b>	<b>-\$15,097</b>	<b>-\$15,081</b>

\* Note that positive values constitute a net benefit to local governments and negative values are net costs.

## II. Schedule of Anticipated Rules Actions in SFY 2017-2018

Table 6. Schedule of Anticipated Rule Actions between July 1, 2017 and June 30, 2018

<i>Division</i>	<i>Rule Title and Description</i>	<i>NCAC Citation(s)</i>	<i>Contact</i>		<i>Rule Action</i>	<i>Federally Required</i>	<i>Impacts:*</i>		
			<i>Name</i>	<i>Phone</i>			<i>S/</i>	<i>L/</i>	<i>SE</i>
<b>Board of Barber Examiners</b>									
N/A	<b>Fees</b>	21 NCAC 06N .0101	Dennis Seavers	919-981-5210 x22	Amend	No	S	-	-
The board plans to mandate online renewals. The board believes that there will be more timely renewals, affecting the revenues for late fees. Also, there will be credit-card transaction fees.									
<b>Department of Commerce</b>									
Industrial Commission	<b>Workers' Compensation Rules</b>	04 NCAC Chapter 10A	Kendall Bourdon	(919)-807-2644	Adopt and Amend	No	U	U	U
Following extensive rulemaking from 2011 through 2014, NCIC anticipates some additional rulemaking in Subchapter 10A to make revisions and updates. This anticipated rulemaking will be primarily amendments; however, there may be some new rules adopted.									
Industrial Commission	<b>Tort Claims Rules</b>	04 NCAC Chapter 10B	Kendall Bourdon	(919)-807-2644	Amend	No	U	U	U
Following extensive rulemaking from 2011 through 2014, NCIC anticipates some additional rulemaking in Subchapter 10B to make revisions and updates, most likely limited to amendments.									
Industrial Commission	<b>Fees for Medical Compensation</b>	04 NCAC Chapter 10J	Kendall Bourdon	(919)-807-2644	Adopt and Amend	No	S	L	SE
The effects of the August 9, 2016 decision in Surgical Care Affiliates, LLC v. North Carolina Industrial Commission, No. 16-CVS-00600 (Wake County Superior Court) necessitated the NCIC's expedited implementation of a temporary rule amending the NCIC's medical fee schedule. The NCIC anticipates engaging in the permanent rulemaking process to follow the expiration of the temporary rule.									
Industrial Commission	<b>Industrial Commission Forms</b>	04 NCAC Chapter 10L	Kendall Bourdon	(919)-807-2644	Adopt and Amend	No	U	U	U
Some existing Industrial Commission Forms that are not currently in rules may undergo substantive revisions which would require their adoption as rules in Subchapter 10L.									

\* S = State Impact, L = Local Impact, SE = Substantial Economic Impact of \$1,000,000 or greater in a 12-months period, U = Impact Unknown.

## II. Schedule of Anticipated Rules Actions in SFY 2017-2018

Division	Rule Title and Description	NCAC Citation(s)	Contact		Rule Action	Federally Required	Impacts:*		
			Name	Phone			S/	L/	SE
<b>Department of Environmental Quality</b>									
Division of Coastal Management	<b>Local Planning and Management Grants</b>	15A NCAC 07L	Rachel Love-Adrick	252-808-2808	Repeal and Amend	No	S	L	-
Amendments to 7L are intended to shift the primary focus of grant funding from local land use plans to a broad variety of local projects that address coastal issues and to allow the Division to focus on specific issues or areas of Coastal Resources Commission interest in awarding grant funds. The economic impacts of these proposed amendments benefit local governments by modifying the distribution of funds among local governments and aligning the types of eligible projects with priorities relevant to the coastal area.									
Division of Mitigation Services	<b>Ecosystem Enhancement Program</b>	15A NCAC 02R	Michael Ellison	919-707-8976	Readopt	Yes	S	L	SE
DMS is proposing to amend rules to update basinwide restoration planning language and the fee calculation structure in order for rates to reflect actual project and program costs. Since both State and Local government entities voluntarily use this program, they could be impacted by changes in rates for mitigation credits.									
Division of Energy, Mineral, and Land Resources	<b>Sedimentation Control</b>	15A NCAC 04	John Holley	919-707-9215	Readopt	No	-	-	U
Anticipated rule changes only seek to provide clarifying language for understanding of requirements, definitions of existing terms, and administrative corrections (addresses, Agency Names, Reference Edits, etc.). Although the Division is not anticipating rule changes that will have economic impact, there could be a possibility as staff proceed in rule drafting.									
Division of Energy, Mineral, and Land Resources	<b>Dam Safety</b>	15A NCAC 2K	Shane Cook	919-707-9217	Amend	No	-	-	U
The Division does not anticipate rule changes that will have economic impact, however, there could be a possibility as staff proceed in rule drafting.									
Division of Air Quality	<b>Municipal Solid Waste Landfills</b>	15A NCAC 02D .1700	Mark Cuilla (After April 2017, Joelle Burlison)	919-707-8738 919-707-8720	Amend	Yes	U	L	U
Amendments are needed to incorporate updates to federal air emissions guidelines for existing municipal solid waste landfills (40 CFR 60 Subpart Cf) finalized 8-29-2016 into the state rules. The amendments are anticipated to be consistent with the updated federal requirements for municipal solid waste landfills some of which are owned/operated by county governments or municipalities.									

\* S = State Impact, L = Local Impact, SE = Substantial Economic Impact of \$1,000,000 or greater in a 12-months period, U = Impact Unknown.

## II. Schedule of Anticipated Rules Actions in SFY 2017-2018

Division	Rule Title and Description	NCAC Citation(s)	Contact		Rule Action	Federally Required	Impacts:*		
			Name	Phone			S/	L/	SE
Division of Air Quality	<b>Commercial and Industrial Solid Waste Incineration Units</b>	15A NCAC 02D .1210	Mark Cuilla (After April 2017, Joelle Burleson)	919-707-8738 919-707-8720	Amend	Yes	-	-	U
	Amendments are needed to incorporate updated federal air emissions requirements for existing commercial and industrial solid waste incinerators (40 CFR 60 Subpart DDDD) into the state rules. The amendments are anticipated to be consistent with the updated federal requirements. Few facilities are anticipated to be impacted.								
Division of Marine Fisheries	<b>Secondary Nursery Areas</b>	15A NCAC 03N .0105; also 03I .0101, 03L .0101, .0103, 03M .0522, .0523, 03R .0105	Catherine Blum	252-808-8014	Adopt and Amend	No	S	U	SE
	The North Carolina Wildlife Federation submitted a petition for rulemaking to the Marine Fisheries Commission. The commission is scheduled to vote on Feb. 16, 2017 to deny the petition or approve the petition and initiate rulemaking. The proposed rules will designate all coastal fishing waters not otherwise designated as nursery areas as special secondary nursery areas, establish clear criteria for the opening of shrimp season, and define the type of gear and how and when gear may be used in special secondary nursery areas during shrimp season. As written, unintended consequences of the petitioned rules would eliminate several trawl fisheries. These fisheries harvest seafood with an estimated annual average value of 18.8 million dollars; this figure would substantially be reduced under the petitioned rules. There would be far-reaching impacts of the proposed rules, including substantial economic impacts.								
Division of Waste Management	<b>Hazardous Waste Generator Improvements Rule - Revises and updates the rules for hazardous waste generators</b>	15A NCAC 13A .0101, .0102, .0106-.0113, .0118, .0119	Jenny Patterson	336-767-0031	Repeal and Adopt	Yes	U	U	U
	Rules will be added, removed or revised based on the federal rule (Hazardous Waste Generator Improvements Rule). These rules are currently being evaluated and it is uncertain whether there will be a state impact, local impact, or substantial impact.								
Division of Waste Management	<b>Hazardous Waste Management - Periodic Rule Review</b>	15A NCAC 13A .0102-.0113, .0115-.0119	Jenny Patterson	336-767-0031	Readopt	No	U	U	U
	Rules will be reviewed/amended as part of the re-adoption process of the periodic rule review required by G.S. 150B-21.3A. These rules are currently being evaluated and it is uncertain whether there will be a state impact, local impact, or substantial impact.								

\* S = State Impact, L = Local Impact, SE = Substantial Economic Impact of \$1,000,000 or greater in a 12-months period, U = Impact Unknown.

## II. Schedule of Anticipated Rules Actions in SFY 2017-2018

Division	Rule Title and Description	NCAC Citation(s)	Contact		Rule Action	Federally Required	Impacts:*		
			Name	Phone			S/	L/	SE
<b>Department of Health and Human Services</b>									
Child Development and Early Education	<b>Child Care Center, FCCH and Special Programs - Readoption</b>	10A NCAC 09	Dedra Alston	919-527-6502	Adopt, Amend, and Repeal	Yes	S	L	SE
Proposed rules would comply with the Child Care and Development Block Grant (CCDBG) Act of 2014. These requirements are needed in order to maintain federal funding for families with children in child care. Changes to rules include health and safety requirements, and policies and procedures required in order to comply with the new federal law.									
Division of Health Service Regulations	<b>Jails</b>	10A NCAC 14J .0101, .0102, .0103, .0201, .0203, .0204, .0301, .0302, .0303, .0402, .0403, .0404, .0405, .0501, .0601, .0702, .0705, .0904, .1001, .1002, .1201, .1202, .1203, .1207, .1210, .1212, .1213, .1214, .1215, .1218, .1219, .1225, .1226	Nadine Pfeiffer	919-855-3811	Readopt	No	S	L	SE
These rules are being readopted following the periodic review and expiration of existing rules process. These rules have been identified as "Necessary with Substantive Public Interest." The last time any of the rules in the Subchapter have been revised was 1993. The standards and practices that were appropriate in the 1990's are not the best, most current practices and many of these rules are in need of revision. The rule changes have been drafted with input per statute with a stakeholder group. The readoptions will focus in the areas of definitions, the operations manual, classification and housing of inmates, fire safety, security requirements, supervision, sanitation and personal hygiene, menus, health care, and standards for new jail design and construction. The operation of the jail in each county is determined by the Sheriff of the county. The Construction Section of the DHSR regulates and inspects the Jails. These changes will affect the cost in operations and construction standards of the jails, therefore state and local government will be impacted. It is also anticipated with the number of rule readoptions and due to construction standards being changed, these rules will have a substantial economic impact.									

\* S = State Impact, L = Local Impact, SE = Substantial Economic Impact of \$1,000,000 or greater in a 12-months period, U = Impact Unknown.

## II. Schedule of Anticipated Rules Actions in SFY 2017-2018

Division	Rule Title and Description	NCAC Citation(s)	Contact		Rule Action	Federally Required	Impacts:*		
			Name	Phone			S/	L/	SE
Division of Health Service Regulations	<b>Home Care</b>	10A NCAC 13J .0901, .1004, .1007, .1107, .1110, .1202, .1402, .1502	Nadine Pfeiffer	919-855-3811	Readopt	No	S	L	SE
<p>These rules are being readopted following the periodic review and expiration of existing rules process. These rules have been identified as "Necessary with Substantive Public Interest." A stakeholder group was consulted on the rule readoptions, and rule changes have been drafted. The readoptions will focus in the areas of definitions, agency evaluation, client rights and responsibilities, in-home aide services, supervision and competency of aides, case review and plan of care, and the client record. Home care agencies are licensed and operated by private entities, which may include county government agencies. The Acute and Home Care Licensure &amp; Certification Section of DHSR is responsible for licensing these providers. These rule changes will affect the operation of the agency for the regulated providers for service provision and the Acute and Home Care Licensure &amp; Certification Section for compliance regulation, therefore, state and local government will be impacted. The rule readoptions will impact DMA provider reimbursement, adding to state impact. The rules are anticipated to be of a substantial economic impact; however, the amount of fiscal economic impact is unknown.</p>									
Division of Health Service Regulations	<b>Hospital Bylaw</b>	10A NCAC 13B .3701, .3702, .3703, .3704, .3705, .3706, .3707, .4104	Nadine Pfeiffer	919-855-3811	Readopt	Yes	S	L	SE
<p>These rules are being readopted and amended following the periodic review and expiration of existing rules process. These rules have been identified as "Necessary with Substantive Public Interest." A subcommittee of the Medical Care Commission is meeting to review the problems with hospital bylaws and develop rule changes for readoption by the calendar year's end due to the number of comments received during the periodic review process. Hospitals are non-profit, for-profit and governmentally owned and operated facilities located in urban and rural areas in the state. The Acute and Home Care Licensure &amp; Certification Section of DHSR is responsible for licensing and regulating these providers. It is anticipated these rule changes will affect the cost to the internal operation of the regulated providers for compliance with the rules, however it is unknown at this time what changes to the rules will be made. It is also anticipated there will be cost incurred to the Acute and Home Care Licensure &amp; Certification Section for regulatory compliance activities. Therefore, state and local government will be impacted, as well as a substantial economic impact. The amount of anticipated fiscal economic impact is unknown.</p>									

\* S = State Impact, L = Local Impact, SE = Substantial Economic Impact of \$1,000,000 or greater in a 12-months period, U = Impact Unknown.

## II. Schedule of Anticipated Rules Actions in SFY 2017-2018

Division	Rule Title and Description	NCAC Citation(s)	Contact		Rule Action	Federally Required	Impacts:*		
			Name	Phone			S/	L/	SE
Division of Health Service Regulations	<b>Hospital</b>	10A NCAC 13B .1902, .1905, .1918, .1925, .3001, .3101, .3102, .3110, .3204, .3205, .3302, .3502, .3503, .3801, .3903, .4106, .4305, .4603, .5102, .5105, .5406, .5408, .5411, .5412, .5413, .6001, .6002, .6101, .6102, .6103, .6104, .6201, .6202, .6203, .6204, .6205, .6206, .6207, .6208, .6209, .6210, .6211, .6212, .6213, .6214, .6215, .6216, .6217, .6218, .6219, .6220, .6221, .6222, .6223, .6224, .6225, .6226, .6227	Nadine Pfeiffer	919-855-3811	Readopt	Yes	S	L	SE
<p>These rules are being readopted following the periodic review and expiration of existing rules process. These rules have been identified as "Necessary with Substantive Public Interest." A stakeholder group will be consulted on the rule readoptions, however the rule changes have not been drafted. The readoptions will focus in areas of licensed skilled: intermediate: adult care home beds in a hospital; definitions; licensure procedures; general hospital requirements; patient bill of rights; governing body; nursing services; medical records; emergency services; maternal-neonatal services; surgical and anesthesia staff; infection control; comprehensive inpatient rehabilitation; and the physical plant. Hospitals are facilities licensed and operated by entities that may include county government agencies and for-profit and non-profit entities. The Acute and Home Care Licensure &amp; Certification Section of DHHS is responsible for licensing these providers. The Construction Section of DHHS is responsible for construction regulation of these facilities. Cost will be incurred by these rule changes effecting the operation of the facility for the regulated providers, therefore, local government will be impacted. Costs for changes to regulatory activities for both the Construction Section and the Acute and Home Care Licensure &amp; Certification Section of DHHS will impact state government. The physical plant rule changes will entail the largest fiscal impact, as these regulations will reflect new construction FGI standards to be implemented in facilities. The fiscal impact is anticipated to be substantial due to the determinations of construction cost changes. The total amount of anticipated fiscal economic impact is unknown.</p>									

\* S = State Impact, L = Local Impact, SE = Substantial Economic Impact of \$1,000,000 or greater in a 12-months period, U = Impact Unknown.

## II. Schedule of Anticipated Rules Actions in SFY 2017-2018

Division	Rule Title and Description	NCAC Citation(s)	Contact		Rule Action	Federally Required	Impacts:*		
			Name	Phone			S/	L/	SE
Division of Health Service Regulations	<b>Quality Measures</b>	10A NCAC 13B .3502; 13C .0301	Nadine Pfeiffer	919-855-3811	Amend	No	S	L	U
	<p>These rules will implement SL 2015-241 to establish and define no fewer than 10 quality measures for licensed hospitals and licensed ambulatory surgical facilities. The changes to rule 10A NCAC 13B .3502 may be incorporated during the readoption of that rule. No rule text has been developed for these rule amendments, however a stakeholder group will be convened to include members of the NC Medical Care Commission to draft the text. Currently, due to TJC, CMS and other accrediting body regulations and requirements, licensed hospitals and licensed ambulatory surgical centers have been conducting quality improvement programs, however there has never been a state requirement for quality measures. Costs may be incurred from the licensed hospitals and licensed ambulatory surgical facilities to develop and implement the specific quality measure activities required by rule, if they are not already doing those measures, therefore a local impact is anticipated. Costs will be incurred by DHSR staff for implementation of the program required by rule, therefore a state impact is anticipated. The total amount of anticipated fiscal economic impact is unknown.</p>								
Division of Health Service Regulations	<b>Cardiac Rehabilitation Programs</b>	10A NCAC 14F .1203, .1301, .1802, .1901, .1903, .2101	Nadine Pfeiffer	919-855-3811	Readopt	No	S	L	U
	<p>These rules are being readopted following the periodic review and expiration of existing rules process. These rules have been identified as "Necessary with Substantive Public Interest." The last time any of the rules in the Subchapter have been revised was 2000. No rule text has been drafted for these readoptions, however input from stakeholders will be taken into consideration before final language is published. The readoptions will focus in the areas of certification, administration, provision of services, emergencies, and facilities and equipment. Cardiac rehabilitation programs are licensed for operation by DHSR. The licensees of these cardiac rehabilitation programs are hospitals and hospital systems licensed by DHSR, which include non-profit, for-profit and governmentally owned facilities. The Acute and Home Care Licensure &amp; Certification Section of the DHSR is responsible for regulating these programs. Costs will be incurred by the licensed rehabilitation programs due to the readoption rules effecting operational changes, therefore a local government impact is anticipated. Costs will be incurred by DHSR staff for regulatory oversight of the rule readoptions. The total amount of anticipated fiscal economic impact is unknown.</p>								

\* S = State Impact, L = Local Impact, SE = Substantial Economic Impact of \$1,000,000 or greater in a 12-months period, U = Impact Unknown.

## II. Schedule of Anticipated Rules Actions in SFY 2017-2018

Division	Rule Title and Description	NCAC Citation(s)	Contact		Rule Action	Federally Required	Impacts:*		
			Name	Phone			S/	L/	SE
Division of Health Service Regulations	<b>CT Scan</b>	10A NCAC 15 .0611	Nadine Pfeiffer	919-855-3811	Adopt	No	S	L	SE
	<p>Computed Tomography (CT) delivers high quality imaging that is of significant benefit to patients and is an important tool for diagnostic imaging. It is also one of the most important contributors to an increase in population radiation exposure. The Radiation Protection Section of DHSR has regulatory oversight of licensed providers for radioactive materials, which includes CT x-ray machines. Currently there are no regulations specific to the use of CT equipment in the rules at 10A NCAC 15, Radiation Protection. This rule adoption is necessary to simplify compliance with the regulations and reduce hazards associated with the use of CT x-ray machines whether the provider facility is accredited or not. The rule will impact state and local government, as well as private entities, as these constitute licensed provider facility entities. Most impacted facilities have programs in place to meet the standards in the rule if they are meeting CMS CT equipment accreditation standards. Facilities not currently implementing these standards will incur costs, which could be substantial, to meet this rule for training, system performance evaluations, routine quality control, and operation standards. With this rule, some facilities will see cost savings with a reduction in radiation exposure by decreasing the chances for injury and lowering the risk for radiation induced cancers and ultimately reducing potential litigation related to over-exposure or misdiagnosis. The requirements in the rule should shorten the time needed for inspections of CT equipment and enforcement by the Radiation Protection Section of DHSR, thus contributing to the state impact. The total amount of fiscal economic impact is anticipated to be substantial.</p>								
Division of Health Service Regulations	<b>Rulemaking</b>	10A NCAC 14A .0101, .0102, .0103, .0301, .0302, .0303	Nadine Pfeiffer	919-855-3811	Readopt	No	S	-	-
	<p>These rules are being readopted following the periodic review and expiration of existing rules process. These rules have been identified as "Necessary with Substantive Public Interest." No rule text has been drafted for these readoptions. The readoptions will focus in the areas of rulemaking petitions, rulemaking procedures, declaratory rulings, and hearings for nursing home transfers and discharges. The DHSR Division Office is responsible for receiving rulemaking petitions and declaratory rulings with the Director issuing final declaratory ruling decisions. The Division of Medical Assistance has been conducting hearings for nursing home resident transfer and discharge appeals since 1994. The rule readoptions will consist of updates to current process and procedure, as well as technical changes for rulemaking and declaratory rulings, and referring the transfer and discharge hearings to the DMA procedural rules in the NCAC. It is anticipated there will be a state impact due to procedural updates in the rule readoptions. The total amount of anticipated fiscal economic impact is unknown, however none of the fiscal impact is projected to be substantial or to local government.</p>								
Division of Medical Assistance	<b>Good Cause for Delayed Hearings</b>	10A NCAC 21A. 0302	Sarah Pfau	919-855-4137	Readopt	No	U	U	U
	<p>Program staff have determined that the amendment and readoption of this rule that controls local and State hearings, last amended 26 years ago, may yield a substantial economic impact.</p>								

\* S = State Impact, L = Local Impact, SE = Substantial Economic Impact of \$1,000,000 or greater in a 12-months period, U = Impact Unknown.

## II. Schedule of Anticipated Rules Actions in SFY 2017-2018

Division	Rule Title and Description	NCAC Citation(s)	Contact		Rule Action	Federally Required	Impacts:*		
			Name	Phone			S/	L/	SE
Division of Public Health	<b>Clinical Chemistry/Newborn Screening</b> SL 2015-272 mandates newborn screening of every birth in NC for severe combined immunodeficiency (SCID). As stated in legislation, the cost of testing a SCID newborn who is not diagnosed until there is a serious infection can range from five hundred thousand dollars (\$500,000) to well over four million five hundred thousand dollars (\$4,500,000), while the cost of transplanting a SCID infant who is not sick is usually less than one hundred thousand dollars (\$100,000).	10A NCAC 42B.0102	Bob Martin	919-707-5179	Amend	No	S	-	SE
Division of Public Health	<b>Applicability</b> This rule defines what constitutes a water supply source for regulated facilities the environmental health sanitation rules (e.g., food and lodging establishments). Local and State impact might result in opportunity costs for local staff inspecting water systems and for state staff preparing material to be used in the inspections. To be determined if the proposed amendment has a fiscal impact on the regulated community.C31	15A NCAC 18A .1721	Bob Martin	919-707-5179	Amend	No	S	L	U
Division of Public Health	<b>Water Quality</b> Sets standards and procedures for water quality testing that might include Local and State impacts resulting in opportunity costs for local staff testing water systems and for state staff preparing material to be used in the testing. To be determined if the proposed amendment has a fiscal impact on the regulated community.	15A NCAC 18A .1725	Bob Martin	919-707-5179	Amend	No	S	L	U
Division of Public Health	<b>Temporary Supply Systems</b> Sets standards and procedures for the implementation and use of temporary water supply systems. The standards and procedures might include Local and State impacts resulting in opportunity costs for local staff testing water systems and for state staff preparing material to be used in the testing. To be determined if the proposed amendment has a fiscal impact on the regulated community.	15A NCAC 18A .1726	Bob Martin	919-707-5179	Amend	No	S	L	U
Division of Public Health	<b>Use of Food Instruments and Cash-Value Vouchers</b> Rule amendments are required to implement federally mandated EBT as instrument for WIC benefits. State and local agencies as well as retailers will incur costs to train staff on how new procedures. Smaller retailer will have to install card reader at no cost, but will incur set up time and additional training on their use. Participation in WIC may increase with use of EBT with no cost to program; however, retailers may accrue additional revenue with increased sales. State will avert non-compliance thereby also avoiding staff costs associated with implementing and monitoring a corrective action plan.	10A NCAC .0703	Bob Martin	919-707-5179	Amend	Yes	S	L	U

\* S = State Impact, L = Local Impact, SE = Substantial Economic Impact of \$1,000,000 or greater in a 12-months period, U = Impact Unknown.
